COMMUNICATION POLICY

1. INTRODUCTION

Karibib Town Council has a duty to engage effectively with its residents, partners, employees and stakeholders and has therefore developed a Communication Policy. Communication is a complex, multi-dimensional topic and, contrary to popular belief, it is not only about public relations.

The overall aim is that Council communications should be a two-way process; to give people the information to understand accurately what we do, so they can make informed decisions, and to get information from residents and stakeholders so we can understand their needs.

Policy Objectives:

Council acknowledges that the effective dissemination of information and communication is a vital element in building a positive identity for Council through greater community awareness of its services, activities, achievements and resources.

The objectives of this policy are:

- Ensure Council communicates in an effective, standardised and coordinated procedure which increases public interest in council matters
- Provide regular and consistent communication on Council's projects and activities
- Create a positive and professional image for Karibib Town Council through open communication
- Respond to issues raised in the media in a timely and appropriate manner
- Ensure staff are kept fully up to date and informed about Council matters.

Key Communicators

Everyone at the council is effectively a communicator; however, those holding positions such as the Mayor, Deputy Mayor, Chief Executive Officer (CEO), Head of Department (HOD), Local Economic Development (LED) & Corporate Communication Officer can be considered as key communicators.

Therefore, it is important that they communicate the same outlook on various issues and promote the same strategic vision and objectives.

Council's Stakeholders

When developing communication strategies and key messages, it is imperative that communication is addressed to the correct and targeted stakeholders. The characteristics of each stakeholder must be considered including their needs, wants, attitudes, expectations and perceptions of Council in addition to how they receive their information.

Principles of Good Communications

This Communications Policy has been developed based upon the principles of good communication.

- **Visibility:** To commence or maintain a strong two-way communication relationship with stakeholders, it is important that we are visible as much as possible. Visibility leads to recognition and acceptance plus it allows the stakeholders to see the breadth and value of your work.
- **Simplicity:** The stakeholders are busy with many aspects of their lives whether at work or home. Communication must be simple and straight forward to ensure maximum readers and save time.
- **Repetition:** Wherever possible, a repetitive schedule should be devised for message placement to ensure it receives stakeholder's consideration. The more a message is repeated the wider its audience will become.
- **Value:** Ensuring a message has a reasonable level of value for the recipient is paramount to gain their attention and interest. A simple rule of thumb here is that Council operating procedures hold little value to the stakeholders but how those procedures affect the stakeholders hold a high level of value. Therefore, messages should be structured with the stakeholder's effect as their foundation.
- **Variety:** To ensure a message is received by the stakeholders, it needs to be placed in a number of different communication vehicles. The more vehicles (strategic noticeboards, Council's Facebook page, Council's website, newspapers, media outlets, direct mail, other social media, etc) it appears in the wider its likely coverage will be.
- **Listening:** Good (and effective) communication requires two parties -the giver and the receiver. If you send a message you must also expect to receive some form of response at times. It is important that feedback on all issues is encouraged and processed. Nothing will dampen the stakeholder's interest quicker than the belief they are not being listened to.

- **Consistency:** To build credibility and a positive reputation, messages need to be consistent. If your messages are ALWAYS simple, hold value for the recipient, encourage feedback and are placed in a variety of different places they will generate interest and earn respect at an increasing level each time they are placed.
- **Evaluation:** The only accurate way of knowing if your communication is effective is to evaluate it (and the best way to do that is to set a goal for each one and then evaluate if it has been achieved).

3. GUIDELINES FOR COUNCIL STAFF AND COUNCILLORS WHEN DEALING WITH THE MEDIA

- **General matters:** Comment on general Council matters is restricted to the Mayor/ CEO/ LED, Corporate & Waste Management department. Permission may be given by the Mayor, CEO/LED & Corporate, Waste Management department for other staff or councillors to make comments.

If a journalist phones another Councillor or member of staff, they are asked to politely refer the matter to the CEO/ LED & Corporate, Waste Management Department.
 - Do not reply “no comment” or “I am not allowed to talk to the media” as this implies Council has something to hide.
